RE: Feedback Letter - Ashida Self-Powered Relay

Dear Sirs

Lucy Electric has been incorporating Ashida self-powered relays in ring main products for almost five years. The product has been fully tested for compatibility with our products and is judged very satisfactory. We find the product performance to be comparable with that of other relay suppliers and in terms of the number of rejections and customer complaints.

Overall we have established a good working relationship with Ashida and they have proved to be a supportive supplier in many respects.

Yours faithfully

Ahmed Abdallah

Director and General Mar
